**REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the references of record neither reveal nor render obvious the recited combination including a folding analog to digital converter, hereafter ADC, having calibration of first and second output voltages using bias currents selectively applied to a plurality of amplifiers. U.S. Patent 6,825,716 to McGowan reduces offset voltages in folding amplifiers. U.S. Patent 6,822,600 to Taft et al terminates amplifier arrays for folding ADCs. U.S. Patent 6,674,389 to Bult provides a capacitive folding circuit for an ADC. U.S. Patent 6,664,910 to Mulder et al discloses an ADC having plural amplifier arrays.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick G. Wamsley whose telephone number is (571) 272-1814. The official facsimile number is (703) 872-9306.
